

Own a piece of Parisian Art Deco heritage

Rare surviving patterns from 1920's Paris, from the heritage collection of Frank Holmes Fine Decor.

Frank has a passion for saving beautiful vintage raised relief wallcoverings from extinction and these are no exception. We are delighted to add several unfinished tradesman's samples to our collection which have not lost their intricate detail under numerous coats of paint.

To bring these Parisian Art Deco designs back to life, unseen for 100 years, first Frank mounted original fragments to reproduce a useable master. Then each new tile is carefully handcrafted, using a versatile, eco-friendly composite material suitable for a wide range of applications, perhaps to create dado panelling, make a statement splashback, or a stunning feature wall. Handmade to order in white which can be painted to suit your design scheme, or cold cast using a range of metals.

Specifications:

400mm wide x 420mm high

EN13501-1 Fire Classification B-s1-d0 and ASTM E84 Fire Classification Class 1 (class A)
